

About the JCTR

The Jesuit Centre for Theological Reflection (JCTR) is a project of the Zambia-Malawi Province of the Society of Jesus.

Our mission is to foster, from a faith-inspired perspective, a critical understanding of current issues. Guided by the social teaching of the church that emphasises social dignity in community, our mission is to generate action for the promotion of the fullness of human life through research, education, advocacy and consultation.

Cooperating widely with other groups, our Jesuit sponsorship directs us to a special concern for the poor, and assures an international connection in all our efforts.

We aim to promote an inculturated faith, gender equality and empowerment of local communities in the work of justice, peace and the integrity of creation.

Three projects of the JCTR include:

- Church's Social Teaching Project (CST) - promoting the values of the Church for social justice
- Debt and Trade Project - advocating for debt cancellation and fair trade to inspire pro-poor growth
- Social Conditions Research Project - advocating for improvements to the living conditions of the poor

THE JCTR BASIC NEEDS BASKET

A tool for action by

Employers

JOIN THE BNB MOVEMENT!

What is the JCTR Basic Needs Basket?

The Basic Needs Basket (BNB) is an accurate monthly survey that shows the bare minimum cost of living for a family of six - the basic cost of essential food and non-food items needed by an average sized family to live with a decent and healthy lifestyle. It is truly a minimum, excluding additional everyday costs such as education, transport, healthcare and clothing.

The BNB is conducted by the Jesuit Centre for Theological Reflection (JCTR) every month in several urban areas. For example, the figures for January 2006 are:

Lusaka	K1,415,650	Luanshya	K 922,290
Kitwe	K1,054,640	Livingstone	K1,251,900
Ndola	K1,160,720	Kabwe	K 917,140

The BNB is an important:

- **SNAPSHOT** of the socio-economic situation in select locations across Zambia
- **HIGHLIGHT** of the gap between the cost of living and the typical income of ordinary families
- **TARGET** for all of us to aim for when working towards a just and dignified society
- **TOOL** to use when advocating for change, justice, a better wage, a fairer policy or simply a dignified existence
- **GUIDE** for all households in deciding how best to budget to meet their basic needs

The BNB is useful to each and every one of us - households, employers and employees, community groups, church groups, trade unions, the public and private sectors, non-governmental organisations, and government - in understanding how the cost of living in Zambia affects us all.

JCTR Basic Needs Basket: LUSAKA

*January 2006

Cost of basic food items for a family of six

SUBTOTAL FOR NON-FOOD ITEMS		909,400

Total: K1,415,650

*This January 2006 BNB is an example of a survey that is conducted every month in six urban areas.

What does it mean to me?

This brochure is aimed at raising awareness of the JCTR Basic Needs Basket with all Employers, both formal and informal. You are the drivers of the economy and the main source of income to many households.

For Employers, the BNB is:

- a **CRY** to pay just wages to all employees, to end dehumanising casualisation, and to remember the human dignity of your employees
- a neutral, factual **REPRESENTATION** of the difficult living situation faced by your employees at home
- a **CHALLENGE** to promote the common good of all employees by narrowing the gap in income between the lowest and highest paid workers in your enterprise or institution
- an **ENCOURAGEMENT** to make every effort to pay wages that will allow your employees and their families to live in a healthy and dignified way, especially for informal (e.g., domestic) workers who are vulnerable to exploitation
- a **REMINDER** of the importance of business ethics in a free market economy
- a **FOCAL POINT** for discussing working conditions with employees, unions and government
- **INFORMATION** to encourage entrepreneurship and to help you understand how the market economy works in different parts of the country
- an **INSPIRATION** to use your position as an Employer to take a hand in fighting poverty and its causes in Zambia, for example, by lobbying your MP for a tax regime that will allow you to pay your employees justly

"I've been getting just K39,000 per week for the three years and three months that I have worked as a student (casual) worker..."
